Action

## Katharine Hayhoe

Chief Scientist at The Nature Conservancy, Horn Distinguished Professor, Endowed Professor of Public Policy and Public Law, Dept. of Political Science at Texas Tech University

Katharine Hayhoe is an atmospheric scientist whose research focuses on understanding what climate change means for people and the places where we live. She is the Chief Scientist for The Nature Conservancy and a Horn Distinguished Professor and Endowed Professor of Public Policy and Public Law in the Dept. of Political Science at Texas Tech University. Her book, "Saving Us: A Climate Scientist's Case for Hope and Healing in a Divided World," was released in Sept 2021 and she also hosts the PBS digital series Global Weirding, currently in its fifth season. Hayhoe has been named one of TIME's 100 Most Influential People, the United Nations Champion of the Environment, and the World Evangelical Alliance's Climate Ambassador.
